

Dermaplaning Aftercare

Smooth as silk. Let's keep it that way. ↓

✓ DO:

- Apply SPF 30+ before going outdoors ✱
- Use a gentle hydrating moisturizer to soothe skin 🧴
- Enjoy the smoothness — makeup will glide on beautifully! 💄
- Keep skin clean and minimize unnecessary touching
- Book every 3–4 weeks for best ongoing results 📅

🚫 AVOID for 24-48 Hours:

- Active skincare: retinol, vitamin C, AHAs, or BHAs
- Sun exposure ✱ without SPF
- Heavy sweating 🧘, saunas 🧖, or steam rooms
- Waxing, threading, or any face hair removal
- Harsh or abrasive skincare products

? Common Questions Answered:

- ↓ Will my hair grow back thicker? NO — vellus hair is not affected!
- 😊 Is it safe for sensitive skin? Yes, when done by our providers
- ⏰ Can I wear makeup after? Wait 24 hours for best results
- ⌚ How long does it last? 3–4 weeks of smooth, glowing skin

⌚ What to Expect:

- ⚡ Immediately smooth, glowing skin — zero downtime!
- Mild redness that resolves within a few hours 🕒
- Peach fuzz grows back same rate & texture — promise! ✨
- Skin drinks up serums & moisturizer much more effectively

✨ Pair With These Treatments:

- 🧴 HydraFacial: Perfect same-day combination for ultimate glow
- ✨ Chemical Peels: Dermaplaning prep boosts peel penetration
- ⚡ Microneedling: Wait 2 weeks between treatments
- 💉 Botox/Fillers: Can be done same day as dermaplaning

⚠️ Call Us If You Notice:

- Prolonged redness, irritation, or unusual skin reactions after 48 hours

Makeup artist secret: Dermaplaning removes the fine vellus hair (peach fuzz) that can make foundation look patchy or cakey. After treatment, your makeup application will be noticeably smoother and your skin will absorb serums and moisturizers up to 50% more effectively!
